Calling All High School Students!!

What is CAPWIC??

CAPWIC is a conference that celebrates and highlights women in computing and will be held at James Madison University, in Harrisonburg, Virginia. There are many opportunities for high school students to participate in CAPWIC through flash talks, poster sessions, and volunteering. No experience is necessary! CAPWIC also provides a venue for students interested in computing to gain confidence in their skills, meet other computing students and professionals, and learn from accomplished technical women.
